Hi Mike

Could you please ask you office to cut a check for us for the partial furniture and ice maker purchases. We have spent tons of money on equipment, security cameras, and renovation and need to pay our sign company. I am still waiting for my bank to release hold on my account for the equipment that was under the line the we replaced with new equipment. We really need it. It took longer then expected to have everything done and we still need to pay the licensing fees. Just to open restaurant is over \$1.500 more. Please...The total is \$7,692. I am sending you the link

We are almost done and are scheduled to open June 24th.
